

**Road and path surfaces**

Consider hierarchy of materials to define main routes, more secondary routes as well as more informal paths

Main routes - chip and tar

Secondary routes - reinforced gravel + timber edges

Woodland routes - woodchip + timber edges

Minor roads/ standing - reinforced grass

**Boundaries** Consider local vernacular; Lincolnshire post and rail fencing and potential local areas of limestone wall

CANEXEL®

Yellowstone

Optional on all models

Sierra

Optional on all models

**Lodges and decking** Consider easily maintainable timber/ timber composite in warm, naturalistic colours

**Places to sit** Consider easily maintainable timber benches for various areas on the site

**Lighting** Discreet, downward projecting baffle to prevent uplighting

**Waymarking and 'entrances'** Natural finish timber posts to give direction and define entrances to 'communities'
